

Supervisors' Seminar, 12 March 2018

Holmsbu Spa hotell

This will be the 8th seminar for the supervisors in the program since 2011.

The seminar will focus on the supervisor's role, tasks and challenges when supervising.

Who is responsible when the research fellow is to contribute to the institution's academic environment and develop his/her project? How are the supervisors' duties described in the supervisor's contract and in the study plan, and how are they implemented?

The Norwegian Artistic Research Programme focuses on ethics in art and artistic research in conferences and research education. We will discuss the supervisor's role in identifying the ethical questions in supervising.

Seminar leaders: NARP Board chair Cecilie Broch Knudsen and head of administration Geir Strøm.

Her var flere elementer spesifikt til diskusjon:

På hvilken måte er det kobling mellom prosjekt og opplæring?

Hvordan kan denne koblingen gjøres tydeligere?

Hva bør veileder kjenne til av stipendiatens opplæring?

Er det relevante koblinger mellom studieplanen og (deler av) stipendiatens prosjekt?

Avklaring av forventninger mellom veileder og stipendiat.
